Kacky and Gene:

Please provide a separate response to each of the consulting parties. Your responses should show how the Town is addressing the concerns and/or objections from the consulting parties on the proposed project. How did their concerns factor into the Town's decision for the project? Hope this helps.

Gene and Kacky:

Attached are several emails (12) that we have received from several Consulting Parties. Please draft responses to these emails and we (FHWA) will consolidate all the responses to these comments and respond directly back to the consulting parties. If the Town has already responded to some of the consulting parties already, please provide me with a copy of your responses. Responding to Consulting Parties' comments is part of the Section 106 process. Please let me know if you have any questions.

Thanks for your help!
